**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1 – 5, 8 – 10, 16 – 42, 43 – 69 and 70 – 80 are subcombination drawn to encoding and compression of series of images, which are rendered from a object based computer graphics, classified in class 375, subclass 240.

II. Claims 11 – 15 and 6 – 7 are combination of the subcombination drawn to manipulating user commands over computer network, classified in class 725.

2. The inventions are distinct, each from the other because the combination does not require the specific of the sub-combinations.

3. Because these inventions are distinct and the search required for group 1 does not necessarily required for group 2, restriction for examination purpose as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
